Hello there!

We're Aiolane - a custom software development company, a member of High Technologies Park. Right now, we are looking for an Angular developer to join our team.

Responsibilities:

- Participate in analyzing, designing, writing and testing code;
- Implementing and documenting functionally. Integrating third-party systems as to the requirements;
- Collaborate with the team;
- Strictly follow company policies in terms of cooperation and functioning;
- Make internal development documentation;
- Provide unit tests expertise and experience;
- Provide team work demonstration capabilities.

Requirements:

- Experience in Angular 2+;
- Knowledge of TypeScript;
- HTML5/CSS3;
- Complete understanding of the principles of functional programming;
- Familiar with Ionic framework;
- UI/UX design skill is a plus;
- Intermediate+ level of English.

What we offer:

- Interesting projects from foreign customers;
- Work in a team of experienced Senior-level developers;
- Modern office near the underground station (S.Union Business Center);
- Fair salary, bind to USD;
- Flexible work schedule;
- Loyalty program (goods and services at a discount for Aiolane employees);
- English courses.
